## MINE RESCUE AND FIRST AID CONTESTS SUCCESSFUL

While considerable interest was manifested in the Mine Rescue and First Aid contests, held here on Saturday last, in the opinion of Alex. Ross, of Calgary, who is chairman of the Workmen's Compensation Board, and actively interested in the work of mine rescue and first aid, there appears to be a lacking of very necessary interest on the part of the bulk of our population, who are so closely connected with the hazards of mining.

Eight First Aid and six Mine Rescue teams from Coleman, Bellevue, Cammore, Blairmore and Hillcrest, presented themselves before the judges for competition. The programme opened at 8.30 in the morning and concluded about 5 p.m.

The judges of the Mine Rescue contest were: J. B. DeHart, mine inspector of Lethbridge; Robert Livingstone, mine operator of Lethbridge; J. McDonald, mine inspector of Fernie, and M. McLean, mine superintendent of Michel. The judges in First Aid were: Dr. Groff, of Edmonton; Capt. Robert Faulds, of Taber; Dr. Walkey, of Pincher Creek, and W. J. Hill, of Edmonton.

Following were the winning teams and their personnel:

First Aid competition—First—Cammore, with 1108 marks out of a possible 1200. J. L. Hill (captain), R. Jackson, M. Carmichael, C. S. Dewin and J. M. Miskow.

Second—International (Coleman), with 1062 marks. R. Greenhalgh (captain), E. Hill, E. X. Hill, J. Glenning and A. Jones.

Third—Greenhill (Blairmore), with 1054 marks. M. H. Congdon (captain), R. Richards, Harvey Carmichael, Walter North and Idris Evans.

Mine Rescue competition—First—International (Coleman), with 987 marks out of a possible 1000. Evan H. Morgan (captain), H. Chamberlain, James Hart, Elias Jones, Douglas Jones and James Fulton.

Second—Greenhill (Blairmore), with 92 marks. Emil Blas (captain), J. W. Whitehead, Robert Oakes, Marshall Hamilton, A. Womersley and D. Hutton.

Third—Hillcrest, with 91.4 marks. J. McDade (captain), Fred White, T. Walters, F. Balkwill, R. M. Clark and Harry Instone.

Prizes were presented to the successful competitors at a smoker held in the Greenhill Grill at night, at which Mr. Moses Johnson ably acted as chairman. The various trophies were handed to the winners by Mr. Alex. Ross, who in a very pleasing speech complimented the teams for the excellent showing made by them, and the Crows' Nest Pass district generally for the very great interest being manifested in the important exercises of mine rescue and first aid. He concurred with previous speakers in that he believed that nowhere in Canada was such a high standard of efficiency noted in this regard as in the mining districts of Alberta, and he urged upon those interested in the work to continue, that it was the most humane work that could be undertaken. Other speakers included Mr. George Kellock, general manager of McGillivray Creek Coal & Coke Company, Limited, Coleman; Mr. O. E. S. Whiteside, general manager of the International Coal & Coke Company, Limited; Mr. McDonald, of the Crows' Nest Pass Coal Company, and Mr. P. M. Christophers, M.P. for Rocky Mountain.

During the smoker, spots were rendered by Mr. Hadwell and others. In addition to the major prizes awarded, all of which were beautiful and costly; beautiful consolation mementoes were handed to all others who took part in the contests.

The contests were the first held since 1924, and it is pleasing to note that prospects are bright for a re-

## MR. AND MRS. MATHESON HONORED AT MACLEOD

Twenty-five years ago, J. D. Matheson, K.C., and Mrs. Matheson, of Macleod, were married by Rev. John F. Dunstan at Grove Presbyterian church, Halifax, Nova Scotia, and this auspicious event in their lives was celebrated on Friday night last, when from twenty-five to thirty ladies from the congregation of St. Andrew's church, Macleod, gave Mrs. Matheson a great surprise when they presented themselves at her door and on gaining admittance took possession of her home for the evening.

During the evening which was spent in games and various amusements, Mrs. H. H. McLean, secretary of the Aid, in a short felicitous speech, presented Mrs. Matheson with a beautiful silver rose bowl, at the same time reading the following address: "Dear Mrs. Matheson, we your friends and co-workers in St. Andrew's Ladies' Aid wish you, our most faithful member, to accept this little gift as a token of our affectionate esteem and heartfelt wishes for your happiness on this, the occasion of your 25th wedding anniversary. Very sincerely, St. Andrew's Ladies' Aid."

Mrs. Matheson in a few words thanked the ladies for the lovely gift and for their kind thoughts and good wishes for her and her husband on this occasion.

## PUBLIC LIBRARY

Work is proceeding with the new shelving necessary to give access to the large number of new books being prepared for use.

This week a shipment of 150 books was received from Edmonton.

The library is for the use of all citizens of Blairmore. You are invited to make the fullest use of its facilities for reading and study. Fee \$1.00 per year.

Hours the library is open—Tuesdays and Saturdays from 7 to 9 p.m.

The new sidewalks connecting the churches and schools with Victoria Street, were completed this week. The new walks extend from the rear of the F. M. Thompson Co. building on Seventh Avenue north and along State Street to Eighth Avenue, with crossing to the public school; also from Victoria Street north along the east side of Tenth Avenue to the rear of the United Church property and along the front of said property. The work was done by Contractor Pozzi.

A big Washington sedan overturned off the road near Burnis on Sunday forenoon, landing in the ditch on its side. Neither the car nor its two occupants were damaged. The accident occurred but a few yards from where the Vancouver car, in which Mrs. Allin was injured fatally, rolled over. The authorities should consider placing guard rails along the curves at this point.

## RALLY DAY SERVICES

A GREAT SUCCESS

There was standing room only at the rally day services of the United church, held in the Elks' Hall last Sunday night. Fifty extra chairs had been taken in, but the long form out of the hall as well as several chairs without backs had to be pressed into service to accommodate the crowd.

A most encouraging feature was the proportionally large number of young people present. Throughout the service a spirit of eager expectancy was manifest, that changed to appreciation at the close.

All of the inter-provincial competitions, the scope of which will not only include the mining districts of Rocky Mountain and the Crows' Nest Pass, but the whole of the three western provinces.

### The Singing Fool

By HUBERT DALL  
Copyright, 1924, Warner Bros. Pictures, Inc.

#### SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club wins fame on Broadway as a composer of popular songs. He marries Molly Winton, a ballad singer, and makes her famous, too. Molly and Al have a baby, Junior, whom Al adores. Molly becomes romantically interested in John Perry, Al's close friend, and Perry begs her to leave Al. On the thirtieth anniversary of his marriage Al takes Molly home from the Club Bombo, where he is part owner. She is moody; her conscience bothers her because of her behaviour with Perry. This is intensified when Al goes to the nursery and she sees how ardently he loves Junior. Later, in a burst of rage, she tells Al she doesn't love him any more. As Al recoils, Molly hears Junior calling her.

#### CHAPTER XV.

Junior had awakened to find that his toy, his woolly dog, had dropped out of bed. So he was calling to Molly to come and get it for him. As his high childish voice drifted through the room to Molly and Al they gave a start. The expression on Al's face softened in an instant. Molly's remained the same as she brushed by Al to look after Junior.

Al turned, looking after her retreating figure, still in a daze from her harsh words. He had lost her love, she actually said so herself! Her words and the heart-breaking scene he had just passed through seemed fated and unreal to him. What had he done to deserve her indifference and her scorn?

Then, like a man in a dream, he followed her toward the nursery. Standing in the doorway, he saw her pick up Junior's woolly dog from the floor, replace it in the child's arms, and carefully tuck him in.

"Go to sleep, now, Junior. Then Mamma can sleep too."

How strangely contrasting was that soothing voice to the tone Molly had just used in addressing Al! And how kind the expression on Molly's profile as she bent over Junior's bed! Surely this was not the end, thought Al. He suddenly determined that he would not let their life together be blasted by her whim; he would fight to reawaken Molly's love.

As Molly came toward him he raised his hand in an apologetic gesture. "Darling, can't we talk this out? If I've done anything tell me."

"No more talk!" Molly passed him, entering her bedroom. He heard her door close with a snap of finality.

But now Junior was sitting up, holding out his arms to his father. "Daddy, please sit me to sleep."

Al came forward swiftly, picking up Junior, holding him close as if to drive away the wound Molly had inflicted. Here, at any rate, was someone who loved him, trusted him, and always greeted him with the same adoring, happy smile. For a moment Al choked up and couldn't speak. Then he said huskily,

"What do you want me to sing, baby?"

"You know," whispered Junior confidently, "that one about a little boy and me."

"Little Feller?"

"Yes, that one."

Slowly Al began to sing, rocking Junior gently to and fro. There was only an audience of one to hear—and that a very sleepy audience—but the tenderness and appeal of Al's words had not been matched since that night three years ago when he had sung the love ballad "Always," to touch Molly's heart. As the song continued Junior's head drooped in drowsiness and presently his eyes closed. When Al knew that he was really asleep the rhythmic words trailed off into a whisper and silence. Then, pressing the little form close to him for a last good-night hug, he put his son back in the bed.

Once more the tip-toeing from the room. Then Al stopped and gazed wonderingly at Molly's closed door. She was still up! In the semi-darkness of the hallway he could see a faint narrow line of light under the door?

Perhaps she was already repeating of her quick, unkind words—how passionately he wished that could be true! Her pride wouldn't let her make up to him now, but, perhaps in the morning.

Until the long black hours of the night faded into the gray dawn Al sat up in bed, gazing out over the lights of the city, smoking one cigarette after another, wondering, hoping, planning.

In the morning Molly's manner was still cold, but her whip-lash tongue was silent. She avoided meeting his eyes and when she spoke it was about the necessary things concerning Junior or the household. Al watched her, hoping to detect a softening glint in those icy blue eyes, but there was no sign of relenting. Finally he left the apartment for his work.

All through the day and evening there was an actual sharp pain in Al's heart as if a knife had been driven swiftly into him and withdrawn. But he went about his work the same as usual, trying to forget the scene of the night before. When he saw Molly after her performance that evening, he thought she was in better humor. She was not cordial, by any means, but she made some attempt to treat him courteously. His heart gave a bound; in a few days, he told himself, this mood of hers would wear off and she would be her own lovely self again. Their life together would not be unsmoothed after all.

So the days passed, with Molly avoiding Al most of the time, and maintaining a certain secrecy of manner when she did talk to him. Then New Year's Eve arrived, the New Year's Eve that Al was to remember always.

It was the big night in the city's life of revelry; snow blanketed the streets, embellishing the roofs and facades of the houses and skyscrapers, emphasizing the dazzling fantasy of brilliant Broadway.

At the Club Bombo the cause of "whoops" had its most devoted adherents. The crowd in evening dress wore tiny carnival hats and danced

with the true spirit of abandon as midnight approached. Long streams of confetti in brilliant red, green, blue, yellow and purple were shot across the room, describing graceful curves before they fell across the dining tables and the shoulders of the dancers. It was the biggest crowd the Bombo had ever entertained and on the raised orchestra platform, stood Al, wearing a fantastic head-piece, a megaphone in his hands. He was leading the merriment, but the ache in his heart was still present.

Perhaps, he thought, the unrestrained gaiety of this night would change Molly's mood so she would become her old, friendly self. He gave a hurried glance toward her reserved table; she should be here by now. Then came the distracting business of introducing the celebrities, and once more he glanced at the vacant table and consulted his watch. Molly was at least a half hour late. He nodded toward the orchestra leader, signalling for another dance.

As the dancers swept toward the floor he retreated among the tables. What was keeping Molly? He could hear the shrieks of the sirens from outside—the New Year had arrived, the time when food and misunderstandings are forgotten, new resolutions are made, and life begins anew. All this, he hoped desperately, would influence Molly.

The orchestra was playing with staccato brightness and abandon, the couples swayed and snuggled and called to one another.

"Choose a partner yourself!" cried a friend in passing, clapping Al on the shoulder. Al laughed in answer, but a moment later he moved toward the "phone room at the rear. Perhaps Molly had gone straight home from the theatre—he must find out!

The phone room was a sort of alcove, with three or four booths. Al entered one, pulling the door shut and calling his apartment number. But the door suddenly drifted open allowing a roar of happy sounds to enter. Just then he heard a feminine voice at the other end of the wire. Molly's voice, he thought. He quickly pulled the door shut again and said:

"Molly, dearest, I've been holding your table for you—hoping you'd come."

But again the door flew open and he missed the answer.

(To Be Continued.)

#### Intends To Collect Pay

Circus Water Carrier Inherits Fortune But Wants His Wages

A 21-year-old \$3-a-week water carrier for a circus playing in the west, remained at his post under the white tops and refused to leave to collect a \$275,000 inheritance available in Los Angeles, because, he declared, the circus owes him \$60 "hold back" money, which he won't get if he leaves.

The youth, Robert Sterling, of Philadelphia, said he would remain with the circus until it reached Los Angeles, where he would answer personally the telegram received from an attorney informing him of the inheritance left by his father.

Sterling said when the Radio Corporation of America was organized his father operated a radio shop in Philadelphia and purchased shares of stock in the corporation. When the elder Sterling died in 1927, Robert said, he left the stock in keeping of a Los Angeles attorney until Robert became of age. Young Sterling became 21 years old on July 20, but he said he was so "busy filling the 'cook house ice tanks with water," that he paid little attention to the attorney's notice.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Gray's Worm Exterminator.

#### Paris Is Particular

Unaccompanied Women Are Refused Service In Many Cafes

Numerous cafes in Paris still refuse to serve unaccompanied women and the newspapers have taken up the question of the removal of the ban. They argue that times have changed and that women should be catered to even when alone. The fact seems surprising from a New World point of view. On this side of the water nowadays women go unaccompanied to theatres, cafes, hotels and all other public places, and the fact of their being alone is unobserved.

#### Applies To Every Nation

If China and Russia should go to war ninety-five per cent of the population of either country wouldn't know what it was all about. But that is pretty nearly the case with a war in any nation.

#### Says Vancouver Best Outlet

Nothing in Way Of Branch Lines For Peace River District

"When rail connection is established between the Peace River District and the Pacific coast, it would appear that Vancouver would be the logical point for the outlet on the coast," declared E. W. Beatty, president of the Canadian Pacific Railway, who returned to Vancouver Wednesday from Victoria.

Mr. Beatty was non-committal as to when and how rail connection between the coast and the Peace River area should be made. He suggested that coast connection would be the natural consequence of developments in the Peace area, and admitted that it might not be advisable to undertake the great expenditure until the period had arrived when no mistake could be made.

Regarding the Pacific Great Eastern Railway situation, Mr. Beatty said that it would be time enough to discuss that matter when the survey now under way by the provincial government, the Canadian Pacific, and the Canadian National has been completed, and that the directors of this road, jointly owned by the Canadian Pacific and the Canadian National, will likely have some announcement to make at the end of the year.

Answering a direct question as to whether there is any obstacle in the way of a branch of this road being run into British Columbia block of the Peace River area in order to give relief to farmers now located from 60 to 100 miles from the railroad at Hythe, he said that he saw no reason why it could not be done.

#### THE RESPONSIBILITY OF EVERY MOTHER

The child in the home is a never-failing source of joy, but at the same time a never-failing responsibility to the food mother. It is not infrequently happens that minor ailments of the child distress and puzzle her. She does not know just what to feel when they are not serious enough to warrant calling in the doctor. At just such times as Baby's Own Tablets are a never-failing relief for this condition. They are a mild but thorough laxative and soothe the action on the stomach and bowels they banish constipation and indigestion; break up colds and simple fevers; allay the cutting of teeth and promote health-giving sleep. Consequently Mrs. W. Fenning, Mackay, Ont., writes: "I have used Baby's Own Tablets and so highly recommend them that I would not be without them. Please send me your little booklet on the care of children."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

#### Proposed Fish Cannery For Manitoba

According to the "Canadian Fisherman," a fish cannery is being proposed to pack fish products of the Manitoba lakes. It is also reported that efforts are to be made to utilize the large available quantity of coarse fish and fish offal from the Manitoba fisheries as stock feed manufacture.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powders is necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

#### Works Both Ways

You will find, young man, that as long as you have to work for a living there will be something about the job you are on, or somebody working with you, that you don't like. Forget it and look to the future. Some other fellow may feel the same about you.

Minard's Lintment for Warts.

England has had only one king who grew to manhood and who never married. He was William II, son and successor of William the Conqueror.

## Real Dyes are easier to use

DIAMOND DYES are used by practically the same method as any other dye. They go on easier, though—more smoothly and evenly, without spotting or streaking. That's because they are made from real dyes, without a trace of fillers to injure fabrics or give things that redyed look.

Diamond Dyes contain the highest quality dyes that money can buy. That's why they give such clear, bright, new-looking colors, which keep deep and brilliant remarkably through wear and washings.

Next time you have dying to do, try Diamond Dyes—at our risk. See that they are easier to use. Then compare results. You will surely

agree Diamond Dyes are better dyes. The white package of Diamond Dyes is the highest quality dye, prepared for general use. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk and wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods including silk and wool. Your dealer has both packages.

## Diamond Dyes

Sun Proof  
EASY TO USE—BETTER RESULTS

Diamond Dyes contain the highest quality dyes that money can buy. And it is the life of the dye, the source of its richness, color, brilliance and permanence.

#### Strange Aerial Cargoes

Airplanes Are Now Used To Carry Every Kind Of Shipment

Fifty tons of milk are being carried every week by aeroplane between London and the Continent, says a Times writer.

Recently a consignment of sea-horses for the Zoo arrived by aeroplane at Croydon. Great care was lavished on these fantastic creatures, half horse and half dragon, which were caught in the Bay of Biscay, and through the flight air was pumped into their tanks at ten-minute intervals.

Delicate goldfish are often transported in this manner, but the most valuable fish cargo by air was a number of very rare, rainbow-hued specimens from the East Indies, some of which were valued at \$180 per inch.

A barred cage was recently built inside the fuselage of an aeroplane which left Croydon for Le Bourget, where it picked up a fully grown lion, complete with trainer, and brought them back at over 100 miles an hour.

Another special compartment was fitted in an aeroplane to accommodate a performing circus horse from Paris to London; while an air-freighter arrived recently from Amsterdam with a bear, a monkey and a consignment of seals.

Twenty years ago it would have been impossible to build a road to the site of the new observatory on Mont Blanc. The aeroplane has made it possible to convey the stone materials to a height of over 13,000 feet on the mountain side; but when the road is completed it will be one of the most expensive in the world.

It seems strange that milk, easily obtainable in all great cities, should be carried by air, but mysterious zinc-lined boxes were once regularly carried from Croydon to Paris, and these contained two gallons of milk in glass bottles, packed in ice. The American visitor to whom the boxes were addressed had been so impressed with the purity of English milk that they cheerfully paid 80c. a pint to have it delivered to them in Paris!

#### Would Change Denomination

A party of clergymen were attending a Presbyterian conference in Scotland. Several of them set off to explore the district.

Presently they came to a river spanned by a temporary bridge. Not observing a notice that the bridge was unsafe, they started to cross it. The bridge-keeper ran after them in protest.

"It's all right," declared the spokesman, not understanding the reason for the old man's bark; "we're Presbyterians from the Conference."

"I'm no carin' about that," was the reply, "but if ye dinna get off the bridge ye'll all be Baptists!"

The province of Saskatchewan which produces about one-half of the total wheat yield of Canada, is the third largest producer of dairy and also of eggs, and poultry among the nine provinces of the Dominion.

Friend—You think that the heathen are slow to adapt the white man's religion. Globe Trotter—Yes. You see, they have to adopt his values before they see the need of it.

Many would put the world right, but forget to start with themselves.

For Sprains—Use Minard's Lintment.

#### Little Helps For This Week

"He will be very gracious unto thee, the voice of thy cry."—Isaiah xxx. 19.

Father! before Thy footstool kneeling, Once more my heart goes up to Thee.

For aid, for strength, to Thee appealing, Thou who alone canst succor me.

And oh! in my exceeding weakness, Make Thy strength perfect; Thou art strong! Aid me to do Thy will with meekness.

Thou to whom all my powers belong.

There is no good in praying for anything, unless you will also try for it. All the sighs and supplications in the world will not bring wisdom to the heart that fills itself with folly every day, or mercy to the soul that does itself in sin, or usefulness and honor to the life that wastes itself in vanity and idleness.

—Henry J. Van Dyke.

#### Opinion Wasn't Worth Much

It is told of a popular solicitor that he called upon a brother in the profession, and asked his opinion upon a certain point of law. The lawyer to whom the question was addressed drew himself up and observed: "I generally get paid for what I know." The questioner drew a half dollar from his pocket, handed it to the other and coolly remarked: "Tell me all you know and give me the change."

The Man With Asthma almost longs for death to end his suffering. He sees ahead only years of endless torment, with intervals of rest which are themselves fraught with never ceasing fear of renewed attacks. Let him turn to Dr. J. D. Kellogg's Asthma Remedy and know what complete relief it can give. Let him not use it faultily and he will find his asthma a thing of the past.

The first reference to sugar obtained from cane was made by Theophrastus in the third century B.C. He mentioned it as "honey" which came from bamboo.

DOCTORS quite approve the quick comfort of Aspirin. For their perfectly harmless tablets will ease an aching head without penalty. Their increasing use year after year is proof that they do help and can't harm. Take them for any ache; to avoid the pain peculiar to women; many have found them marvelous at such times. The proven directions found in every package of Aspirin tell how to treat colds, sore throat, neuralgia, neuritis, etc. All druggists.

**ASPIRIN**  
Aspirin is a Trademark Registered in Canada

**Too Much ACID**

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has been recommended for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

## SALE OF LABRADOR

The controversy relative to a sale of Labrador has developed to an amusing stage. It is, we believe, universally conceded that we, Canada, to become owner of that territory, it would immediately be incorporated with the province of Quebec, and unless we misjudge the temperament of the Maritime Provinces we feel confident that they would not stand to be further taxed in order to enlarge the boundaries of what they have long come to look upon as a plutocrat province. Even Ontario would scarcely consent to dig down into her pockets to provide a portion of the necessary funds that would be required in order that her "big sister province to the east might advance her boundary stakes. We have never crossed legs with Rt. Hon. Mackenzie King, the present Prime Minister of the Dominion of Canada, but from observations from following his public career, we believe he is too astute a politician to stake his present considered safe constituency of Prince Albert of north-eastern Saskatchewan to satisfy the cupidity of an eastern province to such an extent by paying the price that has been mooted from the Federal treasury.

While there may be some in the various provinces who for sentimental reasons would favour the expansion of the boundaries of the Dominion,

yet we scarcely think their sentiment would be permitted to so overrule their pockets. It therefore appears to us that should the transfer of Labrador from Newfoundland to Canada ever take place, it will be the Province of Quebec and her alone that will have to dig down for the "spondulix."

On the other hand, we believe, and with some degree of reason, every province of the Dominion, (with the possible exception of Quebec) would welcome a proposal for the entering of Newfoundland (retaining her Labrador territory) as a province of the Dominion of Canada, and would be prepared to consider liberal concessions in order to consummate a confederation first dreamed one hundred and forty years ago.

The proposal to sell Labrador is too ridiculous for serious consideration. It is costing us nothing—we do not even have to pay a sessional fee to a representative (if we did, possibly there would not be so much propaganda afloat for its sale.) On the other hand we derive some five or more million dollars wealth therefrom annually, with the prospect of doubling that amount many times by the development of its latent national resources to their fullest extent—Newfoundland Western Star.

Mr. and Mrs. C. J. Tompkins returned this morning from an extended visit to eastern Canada and the States. Since leaving here a couple of months ago, Mr. and Mrs. Tompkins attended the annual gathering of representatives of the Sun Life Assurance Company at Detroit, and also visited the scenes of their childhood days in Caps Breton.

Inspector Nicholson, of the A.P.E., has resigned his post. Nicholson was for a time a sergeant with the Blairmore detachment, when the booze game and other farces were being enacted in the Crown's Nest Pass.

Frank Whitley, president of the Mine Workers' Union of Canada, G. G. Coote, federal member for Macleod, and P. M. Christophers, M.P. for Rocky Mountain, are this week visiting upon Premier Brownlee at Edmonton, seeking relief for jobless miners of this district. A sub-committee to work in conjunction with the above delegates is composed of Jack Brooks, Bellevue; David Gillespie, Coleman; William Lees, Coleman, and William Peters, Blairmore.

A large number of Blairmore folks went to Coleman yesterday to witness the High River plane landing on the Coleman field.

The local lodge of Pythian Sisters will hold their annual bazaar on Wednesday, November 20. [n14]

## JUNIOR ODD FELLOWS ORDER FORMED AT CONVENTION

HOUSTON, Texas.—A ritual for a boys' lodge, to be known as the Junior Order of Independent Odd Fellows was adopted by the I.O.O.F. in its annual world convention here. The purpose of the junior order will be to diffuse the principles of Odd Fellowship among boys between the ages of 14 to 18 years. The Rebekahs voted to recommend a similar organization for girls and the recommendations may be considered by the grand lodge later.

The Keeper of the Celestial Gate asked from within who the first applicant might be.

"It's me!" a voice made reply, and St. Peter bade him come in.

Another knock. Another question.

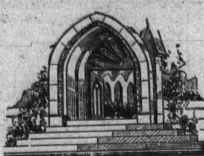

"Who's there?" Another answer, "It's me!"

"Come in!" said the guarding angel.

Then another sharp rap. "Who's there?" asked St. Peter.

"It is I!" a voice replied.

"Another one of those dang school teachers!" grumbled St. Peter.

BLAIRMORE UNITED CHURCH  
Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services for Sunday, October 6th, in the Elks' Hall—

SENIOR SCHOOL at 11 a.m.

JUNIOR SCHOOL at 2 p.m.

PUBLIC WORSHIP at 7:30 p.m.

Rev. Fraser Smith, D.D., will speak.

Dr. Smith was the first medical missionary sent to Honan, China, by the Presbyterian Church in Canada, in 1888.

He and the Rev. Jonathan Goforth were the first to attempt to enter that hostile province, and he suffered much in the early persecutions.

Since that time he has spent some years in India and has just completed a tour of the missions of the United Church in Central India, South China, Korea, Honan, Formosa and Japan.

He speaks where he knows. Be sure to hear him.

Announcements—Sacrament of the Lord's Supper and Reception Service for new members, Sunday, Oct. 13th.

Georgian Singers will be here on Friday, October 11th. This is one of the finest concert parties in Canada.

They have a happy blend of music and comedy—50c and 25c.

Advertisements—Signs along Highway to be limited.

Recent regulations prepared by the town and rural planning advisory board of the province, and now approved by order-in-council, provide that outdoor signs on main highways shall in future be permitted only within two miles of a city or town and then they must be at least 1000 feet apart.

Vendors of pills, pyjamas and pickles may not like it, but in the future no more than 3000 advertising signs will be permitted on Alberta's 2,000 miles of main highways.

The recently promulgated regulations issued by the board also take care of the regulation of business premises along main highways, such as refreshment stands, gasoline stations, "hot dog" stands and the like. These must all be approved as to design, and must not be located nearer to main highways than 60 feet from the centre line. Provisions supplementary to sanitary regulations already in force are also included in reference to tourist camps, and in general all the regulations for billboards, gasoline stations, tourist camps, and other forms of business were intended, not to be repressive of business enterprise, but to aid business by ensuring that only attractive premises, suitably placed, shall be erected and operated.

The Misses Gerry Frey and Violet Rae ably assisted at the piano with the Altermatt Orchestra last Friday night, when a record breaking crowd gathered and danced till after 3 a.m. Both young ladies are pupils of Mrs. Altermatt. Miss Rae's songs have pleased the dancers so much that she has been engaged to sing regularly with the Orchestra.

## FLAPPER FANNY SAYS:

When Val remarked that he intended visiting his old home in Italy, I told him he would require a large chest or trunk. The above was the result.

Some people seem to make a specialty of thinking second-hand thoughts. It sounds odd, but yet it is true that the first apple was eaten by the first pair.

HOLD  
on that  
MORTGAGE

THERE were long, lean years for you—and Mother—before success began to come.

Her hair is grey now—and you are no longer young.

But you dream of leaving a mortgage-free house to Bobby, without the hardships you went through.

Yet you realize the Risk—the sleepless mortgage that still grips your broad acres.

It's THAT that wakes you in the night—the haunting fear that even after your long fight (should death not be able to lift that mortgage—might lose the farm and make all the accumulated labor,

deprivations, economies and money investments of many years, a vain effort.

When you placed that mortgage on the farm did you assure your life for at least a corresponding amount, payable when the loan had to be repaid, or at death?

If you didn't you only added to the anxieties of your widow and family.

Afraid you couldn't pay the premium on the policy? Could your widow pay the interest and maintain the sinking fund on the mortgage?

Don't continue that Risk—cover the mortgage with a life insurance policy that will discharge it—and leave a balance, payable monthly, for current expenses. See the Sun Life representative. It will entail no obligation on you.

'Fresh from the gardens'

## Canadian Anomalies

Following the close of the Great War by the signing of the Armistice, Canada demanded and was accorded a place of equality with other nations of the world at the Peace Conference, and, with the creation of the League of Nations, Canada entered that League on exactly the same terms as all other nations. That is to say, Canada was recognized as a nation. And in signing the League Covenant, Canada accepted the responsibilities of a nation.

At the last Imperial Conference, in London, with all the self-governing Dominions of the Empire and the British Government fully represented, a formal declaration was adopted setting forth that Canada and the other self-governing Dominions were fully autonomous nations within the British Commonwealth of Nations, possessing exact equality with Great Britain.

As a logical outcome of these declarations, Canada has established her own legations in certain foreign countries, appointed her own ministers, and, in turn, these countries have named ministers at Ottawa. Thus, as a nation, Canada has direct representation at Washington, Paris and Tokio, in exactly the same manner as any other country. Equally significant is the fact that the British Government has appointed a High Commissioner to Canada, while Canada maintains a High Commissioner in London.

But while Canada is thus recognized as a nation, it is the only nation in the whole world which has no nationality of its own, and no distinctive flag of its own. These are anomalies which other people find it extremely difficult to understand.

In England, people born in that country are recognized and officially listed as English; if born in Scotland, they are listed as Scottish; in Ireland as Irish; in France, as French; in Germany, as German; in the United States, as American. Born in Canada, on the other hand, a person may be listed as of any nationality under the sun except Canadian. Officially, there is no such person as a Canadian.

The writer of this article was born in Canada as were his father and mother. His mother's parents were both born in Canada. His father's parents were born in Ireland, their ancestors having crossed to the Emerald Isle from Scotland. So the writer becomes, in Canada, an Irishman although neither he nor his parents ever saw Ireland. If his grandfather had been born in Slane, then the writer would be a Siamese.

In the face of such an anomaly, such a ghastly absurdity, it is little wonder that the people of other countries laugh in the face of any person born in Canada who is bold enough to lay claim to his country being a nation.

Every nation in the world, except one, has a distinctive flag of its own. The exception is Canada. Australia, New Zealand, South Africa, Newfoundland, the Irish Free State all have their distinctive national flags, as well as the Union Jack, the flag of all Great Britain and the Empire. Canada has a distinctive flag for its merchant marine, and by Order-in-Council it has been decreed that this shipping flag shall be flown over Canadian Government buildings in the British Isles, and in foreign lands; but it is not officially recognized anywhere else.

Thus, while a Canadian may fly a distinctive Canadian flag over a ship owned by him, he may not fly it over his office building or his residence, and while such a flag may be flown over a Canadian Government building in London, Washington, Paris, or Tokio, it cannot be flown over a Canadian Government building in Halifax or Vancouver, or anywhere between these two points.

A person born in Canada is, therefore, that peculiar individual among the peoples of the world who has no nationality he can call his own, and no distinctive flag of his own may properly fly in his own land and over his own home and public institutions.

And yet the people of Canada find pride in calling Canada a nation. Why, this so-called nation of Canada has not even the right to amend its own constitution, a power possessed by other self-governing dominions of the British Commonwealth.

Canada is, and is proud to be, and desires to remain, a part of the British Commonwealth of Nations. It is proud of and loyal to the Union Jack as the flag of that great Commonwealth, and will ever retain it. But just as the Dominion has its own Coat of Arms, and each Province its Arms, and each city its Arms, so do the people of Canada desire to establish and retain their own nationality, have their own distinctive flag, and enjoy full autonomy in their domestic affairs.

Much as a native born Canadian may love England, or Scotland, or Australia, or New Zealand, he does not desire to merge his identity or lose his individuality. He is a Canadian and desires to be known as such, not as an Englishman, a Scot, an Australian or a New Zealander.

If Canada is a nation, let it display the qualities and the insignia of a nation.

### Student Aviator Gets Thrill

Fell Out Of Plane But Fortunately Had Parachute

Arthur Carter, automobile dealer and student aviator of Springfield, Mass., experienced an unexpected thrill when he fell out of his plane while flying 1,500 feet over Springfield airport.

Carter, who was flying without a safety belt but who had a parachute, pulled the cord of his parachute and made a landing unhurt. The plane fell in an open field and was demolished.

School Teacher: "If a farmer has 14,000 pecks of potatoes, and he sells them for 20 cents a peck, what will he get?"

Small Boy: "A set of golf clubs, a radio and a town car."

### Rheumatism

Massage the aching parts with Minard's. Soothing relief assured.

### Reconstructing a Liner

Timber From Many Countries Used On Palatial Steamer

Timber of many forests in many countries has been used for reconstruction and redecoration during the seven weeks' overhaul of the White Star liner "Mauretania" which recently left Southampton for New York, on her one hundredth west-bound crossing. The varieties of wood included oak, mahogany, teak, beech, ash, satinwood, walnut, Oregon yellow and pitch pine. Forty-four tons of paint was used on interior and exterior work, whilst 18,000 yards of electric wire was used in wiring electric bells and electric lights in cabins of tourist third cabin accommodation.

### Women Are Excluded

By the ironclad rule of a woman, no woman has ever entered the gigantic Krupp plant, except the former Kaiserin. The regulation was laid down by Frau Margarethe Krupp, for years chief director, and continued in force by her daughter, the present owner, Frau Bertha Krupp Von Bodelschwingh.

Five hundred years before the birth of Christ, Hippocrates, a Greek, wrote a book on medical science which is still studied by students in America and Europe.

### All Weather Road Promised

From International Boundary To Prince Albert National Park

An all-weather highway from Regina or the boundary to Prince Albert National Park will probably be put into condition, F. R. MacMillan, of Saskatoon, president of the Saskatchewan Conservative Association, told members of the Kiwanis Club at Prince Albert. He thought that this should be the policy of the government, and the fact that a cabinet minister in the Anderson Government, Hon. J. A. Merkle, was on a trip to the park was an evidence of the government's interest.

### HEALTH REGAINED

Mother and Daughters Restored Through the Use of Dr. Williams' Pink Pills

"Contrary to what my friends once thought, I am still living," says Mrs. Norman White, New Canada, N.S., "and I am the credit to Dr. Williams' Pink Pills. I had been a sufferer for some years. I was weak and run-down, my heart would palpitate violently at the least exertion. I grew so weak that I could not do my housework. I was under a doctor's care, but it did not benefit me. A second doctor was called in, but with no better results. I was told that I was almost bloodless, and I became so weak I was forced to remain in bed. My friends did not believe I could recover. While in this condition a neighbor strongly urged me to try Dr. Williams' Pink Pills. It was like grasping at a straw, but six boxes of this medicine were got for me, and by the time I had taken them I was able to sit up. Another six boxes were got and soon I was able to go about my health steadily improving. I continued the use of the pills until I felt my health fully restored. I still take the pills occasionally as a safeguard. My four daughters have also used the pills with the most beneficial results. The trouble in both cases was the anemia that so often comes when girls are entering womanhood. Under the use of this medicine both fully regained health, strength and activity. You can see, therefore, that it is impossible for me to praise Dr. Williams' Pink Pills too highly, and I hope every weak person who may be afflicted with this will benefit by my experience."

You can get these pills from any medicine dealer or by mail for 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Escape From Submarine

Men Leave Submerged Craft In Record Time During Experiment

Ten men emerged from the sunken submarine T-17 in forty-eight seconds during a submarine experiment in Italy, making what is called a world record for such a feat.

Half of the participants used head pieces, while the others were not specially equipped. The submarine carried, a new device consisting of a large bowl beneath a torpedo tube permitting the men to leave the submarine without water entering the hull.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments will not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So, keep it at hand, as the call for it may come most unexpectedly.

### What's In A Name?

An Englishman's home is his castle, but whether he is able to call his castle what he likes is a matter of some doubt. The thought arises because the Bank of England officers have decreed that the words "Bank of England" on a building in "Burnley" must be removed. The words, carved in bold letters in stone, have adorned this building for over a hundred years. Why they are there on one knows.

### Her Little Boy

Was Very Ill With Summer Complaint

Mrs. Ray Fisher, Lebert, Sask., writes: "For over a month, last summer, my little boy was suffering from summer complaint. He got so bad there began to be traces of blood in his stool, and anything he ate would not stay in his stomach very long. He became so weak he could not stand up. A neighbor recommended

"Discouraged and in despair I sent for a doctor, but not expecting any more benefit than from other medicines I had used, with my surprise I noticed a change after he had taken a few doses, and before the bottle was half used he was the same happy, healthy boy he was before he took sick."

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

W. H. U. 1905

### Wheat Grading High

Quality Year In Wheat Production In Saskatchewan

This year is a quality year in wheat production in Saskatchewan. Seventeen ears of No. 1 hard wheat have already been received by the flour mills at Saskatoon. In each of the years, 1927 and 1928, there was just one ear of No. 1 hard wheat produced in western Canada.

The wheat graded by the Dominion grain inspector at Saskatoon up to the present time shows a very high proportion of the high grades, as follows:

No. 1 hard, 6 per cent; No. 1 northern, 51 per cent; No. 2, 39 per cent; No. 3, 4 per cent.

A part of the No. 2 is Garnet wheat to which the No. 1 grade is not given.

At the Moose Jaw inspection point 50 per cent of the wheat is No. 1, 35 per cent No. 2, and the balance mostly No. 3. A. McPherson, of the Dominion seed branch, reports:

This year northern Saskatchewan is producing wheat of equal quality to that grown in the southern part of the province. This is held to be unusual as excess moisture during the growing season in most years makes the northern wheat starchy. The Elrose line is producing a high percentage of No. 1 hard, Hughton and Elrose being outstanding shipping points.

### Interested In Peace Garden

Financial Support Promised By Industrial Concerns In U.S. and Canada

Interest is developing in a proposal of horticulturists of Canada and the United States that an International Peace Garden be established at some point along the boundary between the two countries. The idea has brought expressions of approval from the Governor-General of Canada and Hon. William Phillips, the United States ambassador to the Dominion, as well as from several Canadian politicians of cabinet rank. The heads of many large industrial concerns on both sides of the boundary have promised financial support, and a considerable sum is in view as a nucleus of endowment for the garden.

Certain it is that a garden of the sort proposed would be a beautiful and fragrant memorial to the well more than a century of peace between Canada and her neighbor, and also an impressive pledge of goodwill. Its spiritual value at all times would depend upon the degree to which it was a symbol of cordial feeling actually entertained by the peoples of the two countries towards one another and as carried into practice by them. — Regina Daily Post.

### Roumanian Scientist

Designs "Space Rocket"

Hopes To Carry Mail To America In Thirty Minutes

A "space rocket," designed to shoot upward for 32 miles, and, it is hoped, be the forerunner of a rocket that will carry mail to America in 30 minutes, is to be built at once, it has been learned.

Prof. Hermann Oberth, a Roumanian scientist, designed the rocket. It will be built under the supervision of the U.F.A. Film Company. Its object, for the first flight, is to measure the physical and chemical properties of the atmosphere. Experiments will be enclosed in a tin end.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

### Winnipeg Heads List

Aviation Club Has Record Of Over Thousand Hours In Air

The rapid growth of air-mindedness in Canada is indicated by the fact that members of clubs in Canada have flown more than 10,000 hours during the first eight and a half months of the year.

The Winnipeg club heads the list with well over 1,000 hours in the air; Toronto comes second with about 1,000 hours, and Ottawa third with just over 900 hours.

One hundred and ninety-two new private, and 57 commercial pilots have graduated from the ranks of the students in the clubs. In 1928 the figures at the end of the year showed 111 private pilots and 28 commercial.

This year there are 22 clubs in actual operation as against 15 last year.

Old Dobbin had one good point. Nobody brought out a new model about the time you got him paid for.

A Reliable Antiseptic—Minard's Liniment.

## From Youth To Old Age

THERE are three trying periods in a woman's life: when the girl matures to womanhood; when a woman gives birth to her first child; when a woman reaches middle age. At these critical times Lydia E. Pinkham's Vegetable Compound helps to restore normal health and vigor. Countless thousands testify to its worth.

## Lydia E. Pinkham's Vegetable Compound

LYDIA E. PINKHAM MEDICINE CO., Lynn, Mass., U.S.A. and Leoburg, Ontario, Canada.

### Artificial Silk From Acetic Acid

Combined With Cellulose Will Make Fine Fabric Is Predicted

Predicting that the sour taste in vinegar will be used to make artificial silk was made to the United States Chemical Society today by Professor D. B. Keyes, of the University of Illinois. The sour substance with which chemists' magicians touch may make finer dresses was called by Prof. Keyes by its scientific name, acetic acid. He told of a newly-developed process at Illinois for making it, developed in co-operation with E. P. King and Sherlock Swaine, of the university. For making artificial silk it is combined with cellulose to form cellulose acetate.

Externally Or Internally, It Is Good.—When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue, touching the seat of the trouble and immediately affording relief. Administered internally it will still the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

### Makes Ninety Miles An Hour

Moth Plane Purchased By Prince Is "Pure British"

The Prince of Wales made his first flight as owner of an airplane, to see his father at Sandringham. It is a G. H. Gypsy Moth, price only \$3,800. The Prince would not buy anything not "pure British." The little Moth makes 90 miles an hour, is painted bright red and blue and carries a silver plate marked "H.R.H. The Prince of Wales." The little machine with aluminum nose is upholstered in scarlet leather which can be inflated to avoid bumps.

### World's Grain Show

National Committee Will Meet In Toronto In November

Hon. W. R. Motherwell, Minister of Agriculture, is calling a second meeting of the national committee of the world's grain conference and exhibition. The meeting will be held in Toronto on November 21.

Considerable work has been accomplished in preparing for the world conference which will be held in Regina in 1932. The tentative price lists will soon be ready and will be so arranged that every province will have good chances in some of the classes. As soon as the lists are completed copies of them will be sent to all foreign countries with invitations to compete.

### Would Broadcast Trials

The broadcasting of trials in Berlin courtsrooms was being contemplated, says a report from the German capital. It was declared there were no legal objections to such procedure, since all trials are public, and that if inaugurated it would be a novelty which soon would be copied throughout the world.

Minard's Liniment For Neuritis.

"Evil is wrought for want of thought as well as want of heart."

## EVEREADY LAYERBILT

### Saves You Money

Here is positively the lowest priced and most satisfactory "B" battery power you can buy. Thousands of radio owners praise these flat-celled Layerbilt Batteries for their astonishing long life and dependable service. Next time you buy "B" batteries, get Eveready Layerbilts. You'll save money. Look for the name on the label.

Have you heard the new Eveready Radio?

## RUSSIAN GRAIN WILL NOT AFFECT CANADA'S TRADE

Ottawa.—Canada's wheat trade would not be imperilled by a resumption of trade relations with Russia by the Labor Government in Great Britain for some years at least, Right Hon. L. C. M. S. Amery, secretary of state for the dominions in Baldwin cabinet, said on his arrival here.

"In the present disorganized condition of Russia under the Bolshevik regime, it is highly improbable," Mr. Amery said, "that there will be surplus wheat to export for some years to come. The Russian farmer is probably only raising enough for his own needs." According to Russian wheat would not constitute a competitive factor in the British market. Just how imminent was the possibility of a resumption of trade relations between Great Britain and Russia, Mr. Amery could not say.

## Grant Priority To Dominion Taxes

Provincial Claim In Bankruptcy Is Second Says Supreme Court

Ottawa, Ont.—The Supreme Court of Canada, in a judgment handed down, held that claims for dominion taxes had priority over claims for provincial taxes. The appeal was taken on behalf of the attorney-general of Canada and opposed on behalf of the attorney-general of Quebec.

The action arose out of a bankruptcy matter. Both the Dominion Government and the Quebec authorities had a claim against the bankrupt for taxes. There was not sufficient to pay both claims in full. It then became a question as to which claim took priority.

The trustee in bankruptcy, in his dividend sheet, gave priority to the claim of the Dominion and in that he was sustained by the trial judge, Mr. Justice Taschereau. On appeal, Mr. Justice Gauthier, who had dissented, that both claims should rank concurrently. From that decision the Dominion appealed to the Supreme Court of Canada.

## New Zealand Showing More British Pictures

Quota Has Been Set By Regulations Of Government

Wellington, New Zealand.—A greater proportion of British moving pictures will be shown in New Zealand in the future, according to new government regulations. From October 1, exhibitors will be required to screen a fixed quota of British films. The government says it has been assured ample supply of both the talking and silent films from British studios will be available during the coming year.

## Grain Stored At Vancouver

Statement Shows Over Seven Million Bushels In Elevators

Vancouver.—Grain in storage in Vancouver elevators has reached a total of 7,285,000 bushels, a figure more than five times greater than the corresponding one for 1923, according to a statement issued by the merchants' exchange.

Ships bookings for wheat, already will be removed during the month of made, show that 1,026,933 bushels October, however.

## Famous Film Missing

London, Eng.—It has been announced that the famous war film, "The Battle of the Somme," is missing. The film is the property of Dr. Gustav Macdonald, who, as an army staff photographer, was in charge of it. It was while he was ill that the picture was removed for safety and now it cannot be discovered. The film was one of the most historic in the world.

## Favors Canadian Flag

Nanaimo, B.C.—After debating for more than an hour, whether or not Canada had a distinct national flag of its own, the British Columbia School Trustees' Association decided that she had not; and that the proper authorities should be informed that the association favored a distinctive emblem.

There are only about 40,000 Eskimos in the entire Arctic.

The United States now has more than 16,000 miles of lighted airways.

W. N. U. 1925

## Will Start In December

Preparations Almost Completed For Western Air Mail Service

Ottawa, Ont.—The western air service will be inaugurated early in December and the tentative date for the first flight has been set for the second week of the month.

This announcement follows the statement of the Department of National Defence that the radio, light beacon and the emergency landing fields will be installed and ready for use by December 1. The Post Office department is fully prepared to put on the service at that date, and the Western Canada Airways, it is understood, have completed preparation and should begin the flying end of the service on short notice.

The bi-weekly air mail service from Edmonton north along the Mackenzie River will begin earlier than the main service across the prairie provinces. "This northerly service will commence as soon as the winter season sets in and the planes can use skis with safety."

## New Airway Mapped

London To Capetown Will Be Longest In World

London, England.—The longest airway in the world—an 8,000-mile route from London to the Cape—is to be inaugurated by the Imperial Airways early next year.

As a result of the great 20,000-mile aerial survey of Africa, made by Sir Alan and Lady Cobham in their big Short Rolls-Royce flying boat, a route through the heart of tropical Africa, passing over deserts and jungles, has been mapped out. Agreements have been made with the various governments concerned for supporting the air line, and preparations are now being completed for its opening. Passengers and mail will leave London every Saturday in a giant triple-screw Armstrong-Siddeley air liner, and will arrive in Capetown nine days later, having flown by a combination of big air liners and all-metal flying boats.

## Reparations Bank

Shunned By League

Committee Withdraws Resolution To Establish Intimate Connection

The League of Nations will not seek, for the present, to establish close relationship between itself and the international reparations bank provided by the Young plan.

This became clear when a resolution envisaging the establishment of an intimate connection between the two was withdrawn from consideration in the Assembly's committee that deals with economic questions. But its authors, Norway and Denmark, in withdrawing are believed to have gained part of their purpose. Their move was interpreted in some quarters as a signal by the countries not concerned directly with reparations payments that they will not be greatly pleased if the proposed bank seeks to assume too dominant a position in the economic life of Europe.

## Discuss Coal Prices

English Mine Owners Consider Question For Canadian Trade

London, Eng.—A dozen large coal mine operators from various parts of the country met Rt. Hon. J. H. Thomas, at the treasury, to discuss the question of prices of coal for the Canadian trade. The minister for employment who has just returned from Canada pointed out the great possibilities of the Dominion for British exporters. It was stated the deputations was not officially representing the mining association of Great Britain, and it was noticed that Sir Ivan Williams, chairman of the association and W. L. L. its secretary, were among those present. No statement was issued immediately.

## Danes Dirigibles Are Obsolete

London, England.—Emphatic denials of the statements in London newspapers that the dirigibles now under construction for the British Government—the R-100 and the R-101—were obsolete, was made by Commander Sir Charles Burnaby, head of the Airship Guarantee Company which is building the R-100.

## Birds Lured To Death

Toronto.—Lured by the brilliance of the beacon at Long Point, on Lake Erie, near Port Rowan, more than 800 song birds migrating to warmer climes for the winter, met death recently. Flying through a fog the birds were attracted by the bright light and dashed to death against the walls of the lighthouse.

## Issue Interesting Report

Grain Commissioners Publish Baking Tests Of 1924 Flour

Winnipeg.—Low weight per bushel, lower flour yield, higher protein content; lower water absorption of the flour and excellent baking quality are features of a preliminary report on the milling and baking characteristics of western Canada's 1924 wheat crop, issued by Dr. F. J. Birchard, chief chemist to the Board of Grain Commissioners for Canada, and his assistant, T. R. Aiken. Milling and baking tests conducted at the Dominion Grain Research Laboratory, in Winnipeg, indicate that, on the whole, the milling yield is inferior, but the baking quality, grade for grade, is fully equal to if not superior to that of last year, states Dr. Birchard, in the report. The effect of frost and immaturity is not a serious consideration as was the case last year; practically all the wheat is sound and mature, but each grade contains an increasing number of undeveloped kernels and consequently the weight per measured bushel would appear to be the chief factor in determining the grade.

## LABOR PARTY IN ONTARIO HAS ENTERED LISTS

Toronto.—The Ontario Labor party officially entered the lists for the coming election when it issued as the first step of its campaign, a manifesto giving the following by way of a minimum program: "Unemployment insurance. Extension of the public ownership principle. A law to permit the election of police commissioners. A liquor referendum. Compulsory public liability automobile insurance. Amendments to the Old Age Pension and Mothers' Allowance Acts. The manifesto criticizes Premier G. Howard Ferguson, leader of the Conservative party, for bringing on an election "long before it was necessary to appeal to the country. Posting as an advocate of responsible government he has not thought it to use the British method where the Premier announces on the floor of Parliament before the elected representatives of the nation that on a certain date an election will be held."

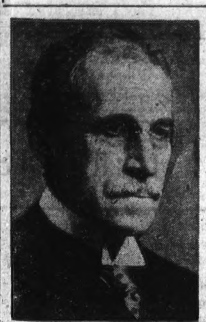

The Labor party has always stood for the discussion of the liquor problem free from party politics, says the manifesto. "It recognizes that the solution of the problem is the taking of the manufacture of liquor away from private capitalists. If there is to be government control, it must not only be control of the retail sale of liquor but also of its manufacture. It is therefore of the opinion that in a question like the liquor issue, where centuries of prejudice exist on both sides, and the question should be submitted to the people in the form of a referendum."

## Edison's Pupil Visits Canada

Walter Huston, Seattle boy who won the special prize donated by Robert Edison, for research and inventive potentialities, was a visitor to Canada recently, when he took Canadian Pacific coast steamer "Princess Marguerite" in a round trip from his home city to Victoria and Vancouver. Huston who is likely to become a second Edison, will devote his life to scientific research, he says, following the example of his famous friend and mentor.

## CHAIRMAN OF ROYAL COMMISSION

Philip D. Ross, proprietor of the Ottawa Citizen, has been appointed chairman of the royal commission, announced by Premier Ferguson, which will study the welfare needs of the province.

## Will Remain In Canada

No Truth In Rumor That Sir Henry Thornton Was Leaving

Ottawa.—Sir Henry Thornton will remain in Canada as president of the Canadian National Railways. Any doubt on this point was settled by Premier Mackenzie King, following a recent meeting of the cabinet. In the absence of Hon. C. A. Dunning, minister of railways, who is in the West, the Prime Minister was unable to say whether or not a renewal of Sir Henry Thornton's contract with the government had been signed.

There was no question, however, about Sir Henry remaining in Canada, the prime minister said.

Recently there have been rumors that the president of the Canadian National might go to England.

## Ban Religious Holidays

Soviets Dispense With All Religious Holidays, Including Sunday

Moscow.—All religious holidays, including Sundays, are abolished under the new 24-hour system of labor introduced throughout the Soviet Union. Workers are given one day rest every five days.

The only holidays not abolished are, October 25, anniversary of the October revolution; January 9, anniversary of Lenin's death, and May 1st and 2nd, international days of labor celebrations.

## Tariff Board Application

Ottawa.—Initiation of investigations based on ten or more new applications will feature the first fall sittings of the tariff advisory board which will open on Tuesday, October 29. Chinese ware, glassware, lacquerware and wall papers are among the commodities that will come under review at the hearings, which will extend over two weeks.

## Colony For Doukhobors

Two Hundred and Fifty Members Of Sect Transferred From Jail To Colony In B.C.

Nelson, B.C.—Some 250 Doukhobor men, women and children who have been confined to the provincial jail here, were transported by the provincial police to Porto Rico.

Porto Rico is a former Christian community lumber camp which is situated some 15 miles south of Nelson. Last Friday when these Sons of Freedom were camping on the outskirts of the city, Peter Veregin offered this old camp site to the Doukhobors as a permanent habitat. Starting early in the morning trucks and buses carried loads of prisoners from the jail to Porto Rico until 4 p.m., when all the Doukhobors had been safely landed. Each bus in addition to the prisoners, carried a couple of deputies to preserve order if necessary. This measure was not necessary.

When all had arrived at the camp it was noticeable that many of the Doukhobors directly started to pick out living quarters from among the camp buildings.

The majority of the buildings at the camp are windowless and doorless, and the more industrious of the Doukhobors began to repair their future homes to protect them against the cold nights that are setting in.

## Balloon Found Unmanned

Believed To Be One Piloted By French Flier

Paris.—A tragedy of the air was indicated as a balloon without passengers floated to the ground near Kamenice, Jugoslavia.

The Aero Club of France was advised the balloon carried the club's flag, and that blood spots were found on the torn basket. An altimeter registering 5,000 meters (about 16,000 feet) was found by peasants nearby.

It was believed the balloon was the one in which Pilot Nuger left St. Cloud, near Paris, to compete in the Aumont Thievillie Cup race. The place where the bag was found is 850 meters from Paris.

## Convicted Of Manslaughter

Mrs. Pantages, Wife Of Theatrical Magnate, Found Guilty By Jury

Los Angeles.—Mrs. Lois Pantages, wife of the theatrical magnate, was convicted of manslaughter by a jury which heard her trial on a charge of second degree murder.

The jury of five women and seven men made no recommendation for leniency. The sentence for manslaughter is fixed by California law at from one to 10 years in the penitentiary. Three women jurors wept as the verdict was read.

Mrs. Pantages was charged following the death of a Japanese gardener, killed when their automobiles collided last June.

## GRAIN EMBARGO IS REQUIRED TO EASE CONGESTION

Winnipeg.—Serious congestion in the lake head's mammoth grain elevators brought suggestions that the placing of an embargo on western grain shipments appeared to be the only remedy to the situation.

Fort William and Port Arthur terminal elevators, with a storage capacity of 56,000,000 bushels today are housing practically 70,000,000 bushels, leaving a comparatively small storage space through which to move the incoming crop.

Lack of demand for Canadian grain in the world markets and the resulting congestion at Montreal, is responsible for the situation at the head of the lakes, and railway authorities here intimated that the placing of an embargo probably will be necessary.

E. B. Ramsay, chairman of the board of grain commissioners, commenting on the situation, said an embargo seemed to be the only remedy.

A similar situation arises every fall, pointed out the grain board chairman. He indicated, however, that last year at this time the shortage of cars to handle the heavy grain crop had itself acted in the nature of an embargo, preventing progress of grain to the lake head. This season, with sufficient cars available to move the wheat east of Port Arthur and Fort William elevators are reported to be almost to capacity, while harbor conditions do not point to an early rush east of lake boats.

## NON-PREFERRED ENTRY RECEIVES FURTHER CUT

Ottawa.—The number of farm laborers which transportation companies will be permitted to bring into Canada from non-preferred countries of Europe will for next year be further reduced by 25 per cent. The present provisions to encourage emigration from the British Isles will be continued including the two pound assisted passages.

Representatives of the Canadian Pacific Railway and steamships, the Canadian National, the Hudson's Bay Company, and several ocean shipping companies recently spent a day in conference with the Hon. J. F. O. and officials of the Immigration Department, laying plans for next year's movement. Although the transportation companies had hoped for greater scope in bringing out farm laborers, the decision of the minister seemed to have been fairly acceptable.

A year ago in order to reduce the influx of immigrants from Central Europe the number of farm laborers which were allowed from non-preferred countries was limited to one-third the previous year's total. This resulted in 10,000 less entering Canada. While the restriction was even greater than this year, the requirement that the movement be completed by May 31 is not so far being continued. And there is also more latitude in the case of those who have fellow countrymen here willing to assist them in getting located on the land.

At the conclusion of the conference the following statement was issued by the department:

"It was agreed that British immigration will continue to receive every possible encouragement. A renewal of the assisted passage agreement for certain classes of British migrants, which expires at the end of the present calendar year, was recommended. These classes include married men, their wives, houseworkers, and juvenile immigrants moved under provincial government or recognized societies auspices.

## No Canadian Race

But Bureau Of Statistics Accepts "National Canadian"

Ottawa.—There is a Canadian nationality but no Canadian race, and any government form filled with nationality as "Canadian" is accepted, it was learned at the Dominion Bureau of Statistics today.

Complaint was made in Toronto of a father who three times entered his child as Canadian and the form was returned, Ottawa being blamed. It is pointed out here that the vital statistics forms are made to the provincial authorities and not to Ottawa.

If the form was returned because the new baby was termed Canadian, it must have been returned by the provincial authorities. The Bureau of Statistics accepts "Nationality—Canadian," but also seeks racial origin, which has nothing to do with nationality.

## Exhibiting Canadian Pictures

Ottawa.—Four pictures from the National Gallery of Canada will be sent to London shortly, as the Dominion's contribution to the exhibition of Italian art, which will be held at the Royal Academy early next year. The exhibition is to be one of the most comprehensive ever held, embracing Italian art from the 12th century to the present day.

## Prince Appoints Air Pilot

London.—E. H. Fielden, of the air force officers' reserve corps, has been chosen personal air pilot to His Royal Highness, the Prince of Wales. In his new post, Fielden will fly the "plane owned by the Prince." This is the first time a member of the royal family has had an air pilot attached to his establishment.

## Manitoba Has Large Surplus

Winnipeg.—A surplus of \$2,000,000 for the fiscal year ended April 30, 1925, was announced by the provincial government through Hon. W. J. Major, attorney-general, in the absence of Premier Bracken, who holds the portfolio of provincial treasurer.

## Adjourns Tenth Session

Geneva.—The assembly of the League of Nations on September 29 adjourned its tenth annual session, which delegates from more than fifty nations hailed as the most constructive and progressive during the ten years of existence of the league.

### COWLEY HAPPENINGS

Mrs. Bundy is a Lethbridge visitor this week.

With favorable weather, another week will see threshing finished in this district.

Mrs. Margaret Kelly and infant daughter are present Calgary visitors.

Mr. and Mrs. Vivian Sandeman were visitors to Lethbridge the early part of the week.

Miss Jean McEwen, of Carmangay, spent this week end here with her mother and family.

Mrs. Moir has returned to her home in Innisfail, after a few days' visit with H. C. Morrison and family.

Mr. Jack Knudis of Calgary, is a visitor in this district. He made the trip by motor, his daughter, Miss Annie, accompanying him.

Mrs. Ralph Easterbrook and infant, of Calgary, are paying a visit to Mr. and Mrs. Cowin, Mrs. Easterbrook's parents.

The regular monthly meeting of the Cowley Women's Institute was held at the home of Mrs. M. A. Murphy on Thursday last at 8 o'clock. After a two months' vacation during the summer the work was again taken up with renewed interest. The principal items of business brought up for discussion included: a three-day basketry course, which will be held on October 26, 27 and 28. A motion was passed to invite the Lundbrook Institute to join in this course, which proves not only to be interesting and pleasing, but useful as well. Next was a report of the condition of the trees and hedge which were planted around the village church yards two years ago, when it was also decided by motion to have these trees replaced from the Lacombe nursery, from which place they were originally purchased. It was found that there was a balance of nearly sixty dollars on hand. It was decided to deposit \$50 to savings account, to be later donated toward the erection of a grandstand in the Cowley recreation grounds. It was also decided to pay the district dues in the sum of \$100 and the constituency dues, \$5.95. Two new members joined at this meeting, namely Mrs. Black and Mrs. H. Lemire. Mrs. E. S. Easterbrook kindly invited the Institute to hold their October meeting at her home. After the meeting adjourned, luncheon was served by the hostess.

Speaking of being in the public eye—what about the grape fruit juice?

### Local and General Items

E. J. ANDERSON, B.Sc., eyesight specialist, will be at the Blairmore Pharmacy on Saturday, October 12th.

The course of true love never runs smooth, and in later years the bachelor is often glad of that.

It may be that golf is less popular with bachelors, because they haven't a home to get away from.

Mart, twelve-year old daughter of Mr. and Mrs. A. King, of Okotoks, died in a Calgary hospital after but two weeks' illness.

A magazine writer says that a dog fills an empty place in a man's life. This is particularly true of the hot dog.

Mr. and Mrs. F. Chardon, of Fernie, accompanied by Mrs. P. Chardon, of Blairmore, were motor visitors to Calgary this week.

The hillslides around Burmis have been covered with crouches during the week, rather unusual for this season of the year.

Mrs. Glendenning, of Coleman, is a patient in the Coleman hospital. Mrs. Glendenning is grand chief of the Alberta Grand Temple of Pythian Sisters.

Jack Sharkey put Tommy Loughran away through the knockout route at New York on Thursday night last early in the third round of a scheduled fifteen-round elimination fight.

A Newfoundland judge has instituted damage proceedings against the driver of a motor truck, claiming that his suit of clothes was ruined by mud thrown by the truck.

Mr. and Mrs. Houston, of Blairmore, arrived recently on a visit to the latter's brothers, the Eastersons. Mr. Houston left to return home this week—Okotoks Review.

Nine persons were fined under the Motor Vehicles Act at Okotoks one day last week. The offences included: cutting corners, reckless driving, parking between signs and driving without lights.

Nine leaders of the Sons of Freedom at Nelson were sentenced to six months in jail for obstructing peace officers. The balance of the 200 and odd arrested will be permitted to form a settlement at Porto Rico, B.C.

Only once in a lifetime does one get a chance to hear men like Dr. Fraser Smith, unless one makes a journey to the great cities for the purpose. Dr. Smith will speak during the evening service of the United church, which is being held in the Elks' Hall for Sunday evening next.

### Local and General Items

Don't waste words when talking to a woman. Cut the story short and let her do the talking.

Mr. Arthur Shearer is down from Kimberley, meeting old friends in this district.

It has never been discovered where people who live beyond their incomes get the money.

The annual meeting of District No. 6, I.O.O.F., will be held at Bellevue on October the 28th.

Jack Miner, the world famous naturalist, will lecture in Lethbridge on Monday next, at 4 and 8 p.m.

Some folks are so mean they would refuse to spit tobacco on the street if they thought it would do anybody any good.

Bill Johnson, "Fat" Fabro and Val Rinaldi soared to Macleod and returned on Sunday last in the latter's gasmobile.

Edmund Taylor, president of Loughheed & Taylor Co., Calgary, died Wednesday afternoon at the age of fifty-eight.

Mr. Robert Strachan, Fernie mine inspector, was down for the Mine Rescue and First Aid contests on Saturday.

Don't miss the Georgian Singers, on Friday, October 11th, in the United church, if ready for use by that time.

Revenue from tourists visiting Canada will, it is expected, total nearly three hundred million dollars this year. Last year tourists spent over \$250,000,000 in the Dominion.

D'ya believe in dreams? Well, we had a terrible dream a few nights ago—dreamt that we had the toothache and woke up, looking all round the room for the ill tooth.

Mrs. James Stewart has been a visitor to Nelson during the week, attending the annual graduation exercises in which her daughter Margaret was a successful candidate.

Little Maurice had just seen—and heard—his father step on a tack with his bare foot, and came running to his mother in wild excitement: "Hey, ma, come quick! Pa's got a puncture!"

The members of the local lodge of Pythian Sisters will hold a Halloween's whist drive and dance in the Lodge Hall on the night of Wednesday, October 30. Admission 50 cents. Keep this date open and look forward to a real good time.

The first advertisement that appeared in print was the announcement of a reward for the recovery of two stolen horses, appearing in the London Impartial Intelligencer in March, 1648.

Messrs. Gordon McVean, of the Mine Safety Appliance Co., Pittsburgh, and C. K. McLeod, of Bushfield McLeod, Limited, of Montreal, were in town on Saturday last to attend the Mine Rescue and First Aid contests.

Recently, Editor Kew, of the Starley Advertiser, had an upset between Nanton and his home town, sustaining slight injuries to himself, damaging his car considerably and broadcasting the type for his next issue. A passer-by stopped, and sizing up the wreck asked: "What type of car is this?" A friend replied: "Mr. Kew, you should have asked 'What car of type is this?'"

Mrs. and Mrs. Gordon Steeves returned from Calgary on Monday.

Mrs. W. K. Hyslop, of Pincher Creek, was a visitor to her Blairmore store this week.

The Drumheller district musical festival will take place on February 25 and 26, 1930.

Mr. and Mrs. Frank Nemrava and family have taken up residence at Canal Flats, B.C.

Newspapers say: "Prohibitionists Watch Ontario." And so do the prospective bootleggers.

The remains of the late Mr. A. A. Baker were laid to rest at Calgary on Saturday afternoon.

A news item states that a boy of five has the brains of a politician. The name of the politician is not given.

Mr. Milt. Ray, of Edmonton, succeeds Mr. A. B. Steeves in this territory for the Swift Canadian Company.

Const. Larkin, with his bride, arrived this morning. They are taking up residence in apartments opposite the Greenhill hotel.

Val says the Bolsheviks of Europe will for the next ten years depend entirely upon the products of his Alberta ranch for their sustenance.

Dr. T. R. Ross was elected first vice-president of the Alberta Medical Association at the Annual convention held in Lethbridge recently.

Just a reminder that the St. Anne's church charity bazaar will be held in the opera house on November 27th. Keep the date open.

Mrs. M. Murphy and Miss J. Demant returned on Monday from Vancouver and other Coast points, where they have been holidaying for the past two weeks—Macleod Times.

Mr. William Bennett, manager of the Rock Creek Hereford Ranch, who had been a patient in the Olivier hospital, suffering from erysipelas, returned home on Monday.

Jack Eddy, of Beaver Mines, had the misfortune to sustain several cracked ribs, when one of his work horses bolted a week or so ago. Jack is now under medical observation.

Complimenting Mr. and Mrs. Ray, who are leaving Edmonton shortly to reside in Fernie, Mr. and Mrs. J. E. Goddard entertained at a farewell party on Friday evening—Edmonton Journal.

Dr. David Warnock, ex-M.P. for the constituency of Macleod and former resident of Pincher Creek, has been appointed manager of the office of Solloway Mills & Co. Limited at Victoria, B.C.

Rev. George F. Bradley, S.J., rector of Campion college, Regina, will conduct a mission in St. Anne's Catholic church, Blairmore, October 6th to 18th. Services each morning in the church at 6:15 and 8 o'clock; and in the opera house each evening at 7:30. Everybody welcome. Plenty room. No charge.

Frank McLeod, last year's star hockey player for Macleod, passed through town on Sunday last, enroute to High River, where he will in future reside. We will probably hear more of Frank in hockey circles this winter as he will more than likely make a place on High River's team—Macleod Times.
